

How to Clean & Care for Your Resysta stained and sealed TruGrain Deck and Siding

To maintain the beauty of your TruGrain deck finished with Resysta stain and sealer, a little care and cleaning goes a long way. All exterior building materials require cleaning and TruGrain decking with Resysta finishes is no different. We recommend soap-and-water cleaning with a soft bristle brush. Learn how to clean and care for your finished TruGrain/Resysta deck by reading the information and get ready to enjoy maximum outdoor living with minimal maintenance.

Dirt and Debris

The affected area should be sprayed off with a hose to remove surface debris. Use warm, soapy (mild soap) water and a soft bristle brush to remove dirt and debris from the Resysta finished surface.

Lime scale deposits left behind from hard water

Combine one part water with one part vinegar in a spray bottle or bucket. Spray it onto the affected areas. Wipe the area with a clean, soft cloth. If using a bucket, moisten a cloth with the mixture and use it to wipe away the lime scale. If the lime is not easily wiping away, moisten a cloth with the mixture and lay it over the area. Allow it to soak for 5-10 minutes. Remove the cloth and wipe the loosened lime away. Repeat as needed until all of the lime scale is removed.

Oil/Grease/ Food

All food spills should be removed as soon as possible. **The surface must be cleaned within seven days to maintain the finish warranty.** To remove, spray off with a hose and use warm, soapy water and a soft bristle brush to remove spills from embossing pattern.

Mold and Mildew

If debris, such as pollen and dirt, is allowed to remain on the deck surface, mold can feed on the biofilm. Using a hose and warm, soapy water with a soft bristle brush is recommended to remove the food source and mold.

NEVER use a pressure washer

NEVER use bleach (products containing bleach), acetone or other solvents on Resysta finishes to maintain the beauty of the surface

Providing Architects and Builders with
Superior Paving, Decking and Pedestal Products.

Commercial | Luxury Residential | Municipal

Extended Team

We can also provide technical consultation and installation training for projects that involve Buzon Pedestals. Please contact us to discuss your particular needs. HDG Building Materials also has a network of experienced installers in many major cities. Please contact us for introductions or referrals.

Sales Representatives

Sales representatives for HDG Building Materials are located in the Pacific Northwest, Southern California, and Iowa.

Outside of those regions? No problem, we are happy to serve. Please contact us at 503.360.9551
