

Providing Architects and Builders with Superior Paving, Decking and Pedestal Products
Commercial | Luxury Residential | Civic

About HDG Building Materials

We source superior products so you can deliver your best work. Choose standard or custom products from the world's leading suppliers of natural stone, wood siding and decking, porcelain pavers, Buzon screwjack pedestals, fiberglass grating, and Cell-Tek slope protection products. HDG Building Materials supports your projects at all levels and from concept to completion.

HDG Products

Buzon Pedestals

This original screwjack pedestal is slope-correcting and height-adjustable. Use with stone, concrete pavers, wood tiles, wood decking, porcelain pavers, or glass tiles.

TruGrain™ made with Resysta®

This innovative composite material made mostly of rice hull is workable like wood.

Natural Stone

There are endless possibilities with this original building material given the variations in color, patterns, and texture.

Decking & Siding

Choose from Thermory wood products, natural bamboo, mahogany, ipe, or TruGrain™ made with Resysta® for decking, siding, and rainscreen applications.

Cell-Tek

Cell-Tek Cellular Confinement System is useful for creating a stable platform over which you can install pavers, stone, or pedestal systems.

Structural Porcelain Pavers

Suitable for upscale residential or high-traffic commercial applications, porcelain pavers offer flexibility in design. Indoors or outside, wood or stone finish, durable and gorgeous.

Structural Hardwood Pavers

Choose from HDG Thermory pavers or hardwood deck tiles made of ipe, massaranduba, or cumaru.

Structural Glass Pavers

Eco-friendly structural glass pavers empower the designer with new ways to imagine flooring, platforms, and pedestrian bridges.

Structural Concrete Pavers

Durable, load-bearing, structural concrete pavers are equally suitable for large residential or high-traffic commercial applications.

HDG FRP Grating

HDG fiberglass reinforced plastic (FRP) molded grating products meet the needs of a wide range of applications.

Aluminum Joist System

This aluminum substructure lies either directly on a subsurface or on Buzon BC-Series adjustable pedestals.

The HDG Difference

Experience

We've supplied materials for projects ranging from custom residential applications to large municipal projects nationwide. When you work with us, you leverage our close relationships with manufacturers and over 25 years in logistics.

Products

We source standard and custom products from the world's leading suppliers of natural stone, wood siding and decking, structural porcelain pavers, and screwjack pedestals.

Commitment

Projects can be complex, especially when using custom cut and imported construction materials. We understand the nuances and mind the details so your project goes as smoothly as possible from start to finish.

Service

From initial design considerations to staging jobsite delivery, we are happy to assist architects, designers, builders, and installers so that together we can create what's next.
